

IRt/c™ Infrared Thermocouples
OEM / FACTORY AUTOMATION

Non-Contact Temperature Sensors as easy to use as photocells & proximity sensors

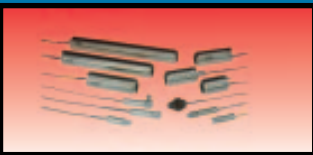

**IRt/c.3X
Infrared Sensor**

**IRt/c.1X
Infrared Sensor**

**SnakeEye™
Thermal Photo Switch**

**More than 300 non-contact
temperature sensor models
...one for every application**

all IRt/c models connect direct to t/c inputs

**t/c.XMTR
in-line transmitter**

or direct to
analog input

4-20 mA
0-5v
0-10v

Compatible with all
types of PLC's & process
control computers, etc...

direct to digital input

...as low as \$99 & with complete system compatibility for...

- ❖ Web drying to control the dry-out point
- ❖ Presence and registration of hot melt adhesive
- ❖ In-oven zone control based on *product* temperature
- ❖ Laminating temperature control
- ❖ Empty bottle / can detection
- ❖ Vacuum and thermoforming ;
and hundreds of other applications.

For more information on the innovative IRt/c approach to temperature measurement and control, contact your authorized *Exergen* Distributor or call *Exergen* at 1-800-422-3006. Be sure to ask for *The IRt/c Book: Handbook of Non-Contact Temperature Sensors* for complete specifications, operating principles, installation tips and application mini-case histories.

All IRt/c products offer a 30-day free trial and are designed and manufactured in the USA by *Exergen*. Volume discounts available.
