

The World's only SELF POWERED Non-Contact Temperature Sensor

The IRt/c™ Infrared thermocouple

Wire directly to any
t/c input device

TOP TEN BENEFITS

1. Price
2. Intrinsically safe
3. No power required
4. Hermetically sealed
5. Wide variety of models
6. Calibrated to real world conditions
7. Emissivity shift errors are minimized
8. Emulates a conventional thermocouple
9. Calibrated with NIST traceable standards
10. Calibrated with multiple ambient temperatures

ACCURACY THAT NEVER MISSES IT'S TARGET, AND THAT'S NO FLUKE!
