### Spring Happenings

**Quick Links**[About Us](#)[Industries Served](#)[Industrial Product List](#)[New Contact Form](#)**Our Selling Partners**[US Sales](#)[International Sales](#)[Join Our Mailing List!](#)**Greetings!**

This past month we celebrated Easter and Earth Day. We started planting seeds for our gardens, patched up potholes in our roads, and hatched eggs. Exergen industrial products had a role in each. Read more below and Happy Spring!

**Agriculture**

One of the most important tasks in gardening is applying the right amount of water. The [IRt/c.3X-K-80F/27C](#), [IRt/c.5-T-80F/27C](#), and [IRt/c.2-T-80F/27C](#) have been used by [Apogee Instruments](#), the United States Department of Agriculture and Texas A&M University for irrigation

control on crops. For more info [click here](#)

**Asphalt**

With all the snow, rain, ice and changes in temperature on our highways and streets this past winter, there were a lot potholes created which meant lots of spring patch work going on. There are a few companies that are using the [IRt/c.10-K-440F/220C](#) to measure the asphalt temperature in the thermal bonding process, such as [Ray-Tech Infrared Corporation](#) and Seam Sealing Systems.

**Eggs**

This past Easter I am sure you painted and hid some eggs for the kids. There are some egg breeders out there who are using the [DX501](#) and our medical [DT-1001](#) (for best accuracy) to measure the egg temperature in the brooding process. One of them is [Aviagen](#), who actually breeds turkey eggs. They also

use the Braun Thermoscan but are switching over to the DT-1001 for best accuracy . Check out this [video here](#) with the Thermoscan. Another one is [Hatchtech](#) in the Netherlands.

Congratulations to Patton Panyanouvong (Pat) in our Shipping/Receiving Department for picking the most wins in our 2010 NCAA Men's Basketball Sweet 16 Pick 'Em Pool. He wins the GRAND PRIZE of this official NCAA autographed basketball courtesy of Westwood One radio.

Exergen ran radio ads during the NCAA tournament which was played from March 18 to April 5 on Westwood One radio nationwide.

**Sincerely,**

Bob Harris
